

TECHNICAL DATA

WOODZONE MASONRY BIOCIDES

Code WZ003 160gm (makes 25 litres)

USE

A surface biocide for use against Dry and Wet Rot on masonry and sub-floors in buildings.

PROPERTIES

Super concentrate
Good penetration
Fully solvent free technology
No VOC's
Significant reduction in plastic waste
Significant reduction in paper waste
Virtually no odour
Non-flammable

DESCRIPTION

A fungicide based on 3-Iodo-2-Propynyl-Butyl-Carbamate. It is supplied in a small plastic container. It is designed to eradicate the Dry Rot fungus from masonry and soil by low-pressure non-atomised spray to refusal on the affected surfaces and by irrigation via holes drilled into walls or floors.

Biokil Crown Chemicals formulations are all cleared under the Governments Pesticide Safety Precaution scheme and under the Control of Pesticide Regulations 1986, for use as directed and carries the HSE Approval No 9177.

METHOD

Preparation

Thoroughly clean all wall areas and oversites to remove any surface fungal growth or strands, using a stiff broom or a wire brush.

Mixing

Dilute the Woodzone Masonry Biocide 160gm container with 25 litres of water.

Application

Sterilise all exposed wall areas with two coats of Woodzone Masonry Biocide to the joints, followed by an overall surface application, using brush or coarse spray. (Do NOT use atomiser sprays). Oversites should be thoroughly sprayed until saturated with fluid. However, where severe attacks of dry rot in masonry have occurred we recommend the following traditional irrigation treatment.

The wall should be drilled deeply (two-thirds depth) at 23 cm (9") staggered centres at a downward angle to ensure full penetration of the fluid. N.B. Irrigation should only be undertaken when there is demonstrable need for deep penetration of fluid.

CONTENTS

3-Iodo-2-Propynyl-n-Butyl-Carbamate 14.99%w/w

COVERAGE

Coarse Spray 1 litre to 2-5m²
Irrigation 2.5 litre per m² for 230mm (9") brickwork or 10 litre per m³

SAFETY

To avoid risks to man and the environment comply with the instructions for use.

*The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work.

All products supplied by Biokil Crown Ltd are of high quality. The Company however cannot govern the conditions of usage and application of its products and any warrant written or implied covers materials only. TECHNICAL DATA

- *Avoid excessive contamination of coveralls.
- *DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.
- *This material and its container must be disposed of in a safe way.
- *Avoid contact with skin.
- * Avoid contact with eyes.
- * In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- *Do not empty into drains
- *REMOVE OR COVER ALL FISH TANKS AND BOWLS before application.
- * KEEP AWAY FROM TREATED SURFACES UNTIL DRY.
- *WASH HANDS AND EXPOSED SKIN before meals and after use.
- *KEEP IN A SAFE PLACE.
- *Keep out of the reach of children.
- *If swallowed, seek medical advice immediately and show this container or label.

PACKAGING

160gm in plastic container.

STORAGE

Should be stored in a cool dry place.
